Electromod takes over UK distribution of high-end audio accessories brand MS HD Power

MS-328SK 78K Silver 13A Gigantic UK Plug

MS HD Power is the high-end audio trading name of Winbo Industries, a well established Hong Kong-based company with more than 45 years' experience of designing and manufacturing high performance and safe power accessories for home audio and vision systems. Key product ranges include mains power plugs, sockets, distribution blocks and cables.

The company boasts an advanced, versatile and well-organised research and development team that includes electrical engineers, mechanical engineers, material engineers, quality engineers and a variety of technicians. All MS HD Power products are guaranteed to be of excellent quality and are sold at a competitive price by a global network of sales and distribution partners.

Previously imported by Air Audio for the UK market, the brand has now signed an agreement to transfer distribution to Electromod.

"The switch is an entirely amicable and mutually beneficial one," explains Electromod's Mark Dolbear. "It's all about balancing our respective portfolios of brands."
